

BEACHES HERITAGE HOME

TORONTO | ON

AN0417HA HEAT PUMP AND FAN COILS

An older 3800 square ft. home in the trendy Beaches area of Toronto had no cooling. The solution was one AN0417HA Aermec 3 Ton heat pump and 5 ductless fan coils. The 3 ton unit cools the entire 3800 square feet and provides heating down to -15°C and then the boiler helps out. Comfort, efficiency and most importantly no mess. With the 5 zones the homeowner is able to cool only the areas they are using to help save energy.

- 1 Aermec AN0417HA heat pump
- 5 high wall ductless fan coils with remote controls
- No ductwork, boxes, or mess
