

CUSTOM HOME

HALTON HILLS | ON

SIMULTANEOUS HEATING AND COOLING

A new 12,000 sq. ft home with radiant infloor heating in the entire home, snow melt and 23 Aermec FCXUS fan coils. The fan coils are mounted in the wall with only a return air grille near the floor (service access) and a supply air grill at the ceiling. The fan coils can provide heating or cooling. The homeowner has simultaneous heating and cooling, warm floors, and cool air at the same time. Low ambient controls allow for cooling all winter long. The cold cellar is also cooled by the Aermec equipment.

- Three 5 ton chillers
- 300,000 Btu/h boilers and 38 fan coils
- 3 Individual temperature control in each room
- No visible duct work, no boxing
- Simultaneous heating and cooling
- Luxury plus comfort
